

Next week, a very important vote is coming up in the US Senate on the tax credit extension. NAR desperately needs as many calls placed as quickly as possible to Sen. Cornyn's and Sen. Hutchison's offices asking them to support the Dodd-Lieberman-Isakson amendment that extends the tax credit. See the email message below and the attachment from NAR for more details.

Please place calls to each Senator's Tax Legislative Assistant and pass this on to your local GA and PAC committee members as well to place calls. The phone numbers are:

Senator Cornyn: 202-224-2934

Senator Hutchison: 202-224-5922

Your assistance with this is critical. There are several different amendments that will come forward on this issue and they are drastically different. Additionally, you may have seen that the tax credit got some bad press earlier this week. We need to make sure the message is sent loud and clear to our Senators' offices that the tax credit is important and that the Dodd-Lieberman-Isakson amendment is the preferred measure.
